

Integration Hub *powered by*

Firstbase Integration Hub powered by Workato is the first remote equipment management integration hub built for the enterprise. The partnership enables customers to connect to 1,000+ SaaS apps, databases, AI services, APIs, and more without writing any code. Break down silos between IT, HR, and Finance and remove barriers for full automation.

Integrate Fast

Leverage pre-existing connectors to quickly connect to your HRIS, ITSM, and more. With Workato's embedded platform, integration needs can be addressed in days.

Automate Everything

Give you IT, HR, and Finance teams superpowers by automating manual processes such as onboarding and offboarding by connecting to your HRIS.
