

Connecting with Okta

Single Sign-On (SSO)

Improve security and compliance by reducing login to one set of credentials

- Save employee time by allowing employees to log into Firstbase with their existing Okta credentials
- Enforce security standards to prevent employees from logging in to Firstbase with multiple accounts

User Provisioning

Reduce manual tasks and streamline user management with automated user provisioning

- Save time and reduce errors by automatically creating an account and assigning an onboarding package in Firstbase when an account is provisioned in Okta
- Recoup assets fast by automatically kicking off the offboarding and retrieval process in Firstbase when an account is deprovisioned in Okta
